

**Cosmic 60R** is designed for Jacket stripping most of multi conductor or single cable. Patented rotary Blade Centralizer system can strip various insulation material cables without changing blades. Standard equipped with digital display for setting diameter.

Cosmic 60R

#### Technical Specification

- Workable wire section : AWG14~AWG5
- Stripping length : 20~90mm
- Partial stripping length : Minimum 10 mm
- Insulation material : Teflon Rubber etc.
- Machine cycle : Max 5sec
- Blade material : Tool steel/Carbide (Optional)
- Electrical requirement : AC110V or 220V 120VA
- Net Weight : 20kg
